BREEZE COLLECTION

TIVEDEN

HANMER

The Breeze Collection is inspired by the subtle variations in nature painted by the wind. The collection consists of six modern and beautiful colors, in an inspiring range from sandy tones transitioning into darker shades, creating both depth and calm.

FONTIN

The serene color scale and the soft and natural tones create an inspiring and versatile foundation for a modern home. The look and feel of the design has been created to reflect a calm look of wood with less knots and cracks but with a variation in grain which creates a soft contrast. With a micro-bevel on all edges the one-strip plank design has been accentuated to add that extra touch to your home.

NATURE COLLECTION

SAREK

Nature is loaded with hues and variations and that has inspired us to create the Kährs Luxury Tiles Nature collection. The collection's color scheme sweeps through nature and comes in seven vibrant colors.

SAPO

The different tones and nuances have gathered its inspiration from the crispy and bright shades found in widespread dunes, the golden afternoon light and the deep earthy tones found in a dense forest. The design has been created to give a lively look of wood with subtle yet obvious graining, cracks and knots. The one strip-plank design has been accentuated with a micro-bevel on all edges which creates a premium effect.

NORDIC CLASSIC COLLECTION

THURINGIAN

The handcraft has been a part of our DNA since day one and having our roots in the Nordics makes it easy to be inspired by the nature that we live in. With gratitude for our heritage, we introduce The Nordic Classic Collection. In a wide range of nine grounded colors, the collection reflects the diverse landscape of the north. The shades and nuances have gathered their inspiration from the light dunes, long coastlines, deep forests, and high mountains found in our northern landscapes.
